

Good Friend

Switch

Midnight, soul tired in the burnout
Couldn't get back up from the knockdown
I was thinking it was over
But You didn't let go
There were times when I lied straight to Your face
Turning back to the style of my old ways
But You only held me closer
And You didn't let go

You've always been a friend to me
When everybody else walked away
You've always been a friend to me
I know for certain that You're here to stay
Even when I don't act right, it don't change Your love
I don't have to doubt it because
You've always been a friend to me
You've always been a friend to me
A good friend to me

Heart broke into a million pieces
So used to everybody leaving
You're the only one who knows me
In the moments that count
Always there for me right when I need it
There were times when I just couldn't believe it
Yeah, I know it took a minute
But I realize now

You've always been a friend to me
When everybody else walked away
You've always been a friend to me
I know for certain that You're here to stay
Even when I don't act right, it don't change Your love
I don't have to doubt it because
You've always been a friend to me
You've always been a friend to me
A good friend to me

In the good times and hard
I can still feel Your heart
Beating right next to mine
Where You've been the whole time

You've always been a friend to me
When everybody else walked away
You've always been a friend to me
I know for certain that You're here to stay
Even when I don't act right, it don't change Your love
I don't have to doubt it because
You've always been a friend to me
You've always been a friend to me
A good friend, good friend, good friend to me
A good friend, good friend, good friend to me
A good friend, good friend, good friend to me
A good friend, good friend, good friend to me
