

Overflow

Switch

In the tension around me
When the doubt's creepin' in
I will rest in the promise that has set me free
I'm gonna move in Your freedom
Nothing holding me back
Gonna dance to the rhythm of Your victory

I can't stop this feeling
Your love has got me singing

Joy like a fire burning
Lighting up the darkness, now I see
Hope in the atmosphere
It surrounds me, it surrounds me
Love lifting from the ashes
Breaking down the walls around my heart
Oh, I can't contain it
So I let it, let it overflow

When fear tries to own me
And my confidence worn
I remember the battle You've already won
Cause the cross couldn't break You
And the grave lost the war
You have given me hope that can not be undone

I can't stop this feeling
Your love has got me singing

Joy like a fire burning
Lighting up the darkness, now I see
Hope in the atmosphere
It surrounds me, it surrounds me
Love lifting from the ashes
Breaking down the walls around my heart
Oh, I can't contain it
So I let it, let it overflow

Let it overflow
I let it, I let it flow
I let it, I let it flow
I let it, I let it flow
I let it, let it over

Joy like a fire burning
Lighting up the darkness, now I see
Hope in the atmosphere
It surrounds me, it surrounds me
Love lifting from the ashes
Breaking down the walls around my heart
Oh, I can't contain it
So I let it, let it overflow

Break down the walls around me
Your love and hope surround me
Break down the walls around me
Surround me, surround me

Break down the walls around me
Your love and hope surround me
Break down the walls around me
Surround me, surround me
