

# REAL LUV

Switch

Fall outta bed in the morning  
So California  
Breeze like the bay, the sun on my face  
I'm invincible  
Leveling up like Mahomes  
I'm in my zone  
I'm feeling blessed  
Too blessed to be stressed  
You already know

I've been around, seen a whole lotta faking  
Imitational  
Every hour feels like a second  
When I'm caught up in this

Real love  
I'm in no hurry  
Ain't got no worries  
Real love  
All my commotion  
Now in slow motion  
Spent my lifetime  
Waiting to find  
Real love

Every day, every hour  
You got the power  
I've been released  
'Cause I got the peace  
To give up control  
Burning in a hole in my pocket  
Nothing can stop it  
So strong  
Even the sun couldn't block it  
From my soul

Real love  
I'm in no hurry  
Ain't got no worries  
Real love  
All my commotion  
Now in slow motion  
Spent my lifetime  
Waiting to find  
Real love

When they say it's just too good to be true  
There's no way they know what I found in you  
It's a love that finds me right where I am  
I won't run, I know I'm safe in your hand

Real love  
Real love  
Spent my lifetime  
Waiting to find  
Real love  
I'm in no hurry

Ain't got no worries  
Real love  
All my commotion  
Now in slow motion  
Spent my lifetime  
Waiting to find  
Real love
