

# UP

Switch

I wake up  
To a mad world every day  
It's too much  
Gonna drive us all insane  
Oh oh oh  
It's pushing me down again  
Oh oh oh  
It's pushing me down again

Stressed out  
I feel tethered to the ground  
So many doubts  
Just questions all around  
Oh oh oh  
It's pushing me down again  
Oh oh oh  
It's pushing me down

But you lift me up so high, I can't come down  
You bring me to the sky, can't see the ground  
We're defying gravity, we don't have to try  
Only love can take me so high  
Only love can take me so  
High, high  
High, high

Try to turn it all off  
Still staring back at me  
Try to run and get caught  
You're the only way to break free  
Oh oh oh  
Can't push me down again  
Oh oh oh  
Can't push me down

But you lift me up so high, I can't come down  
You bring me to the sky, can't see the ground  
We're defying gravity, we don't have to try  
Only love can take me so high  
Only love can take me so  
High, high  
High, high  
Only love can take me so  
High, high  
High, high  
Only love can take me so

Can't bring me down, can't bring me down  
Can't bring me down, can't bring me down  
Can't bring me down, can't bring me down  
Can't bring me down, can't bring me down

But you lift me up so high, I can't come down  
You bring me to the sky, can't see the ground  
We're defying gravity, we don't have to try  
Only love can take me so high  
Only love can take me so

High, high  
High, high
