

Wild

Switch

Like a crash of thunder
Like a river tearing toward the sea
Your love is spilling over
Flooding every desert part of me

And it feels like I'm coming alive
Coming alive

I can't stop, I can't help
Dancing like I've got no shame
No more fear, no more doubt
Never gonna be the same
Eyes on You won't look back
Follow You into the deep
Living like I've been set free
Your love is wild, wild, wild
Your love is wild, wild, wild
Your love is

Like breathing for the first time
Walking like there's air beneath my feet
Your love takes me higher
Only You can do that to me

And it feels like I'm coming alive
Coming alive

I can't stop, I can't help
Dancing like I've got no shame
No more fear, no more doubt
Never gonna be the same
Eyes on You won't look back
Follow You into the deep
Living like I've been set free
Your love is wild, wild, wild
Your love is wild, wild, wild
Your love is

All this time
Been looking for a love
To set my soul on fire
Never thought I'd feel this rush
Your heart is holding mine
And it's never gonna fade
Your love is wild, wild, wild, wild, wild, wild, wild, wild

I can't stop, I can't help
Dancing like I've got no shame
No more fear, no more doubt
Never gonna be the same
Eyes on You won't look back
Follow You into the deep
Living like I've been set free
Your love is wild, wild, wild
Your love is wild, wild, wild
Your love is wild, wild, wild
Your love is wild, wild, wild

Your love is wild, wild, wild
Your love is wild, wild, wild
Your love is wild, wild, wild
Your love is wild, wild, wild
Your love is wild
