

Today it felt so rotten
My tears, they drop like flies
Dee dee dee di-dee di-dee dee [rpt x4]

Disaster is everywhere
The damage multiplies
Dee dee dee di-dee di-dee dee [rpt x4]

Like we would, if we could, swallow up the sea
Like we would, if we could, swallow up the lonely sea
We would swallow swallow swallow swallow swallow
- swallow swallow swallow swallow

Illuminate the pretty conditions shadowing my mind
Execute the level headed so they won't be confined
Dee dee dee di-dee di-dee dee [rpt x4]

Like we would, if we could, swallow up the sea
Like we would, if we could, swallow up the lonely sea
We would swallow swallow swallow swallow swallow
- swallow swallow swallow swallow

The enemies inside my direction
keep me dizzy and confused
Dee dee dee di-dee di-dee dee [rpt x4]

I am the window open to the bluest eyes
I know I never, no I never wondered why
Dee dee dee di-dee di-dee dee [rpt x4] [rpt to fade]
