

# Give Up the Ghost

Switches

You want her don't you?

All those past mistakes you've rued

Well, look who lost the gold

And rather you than me, cus the view I can see is

heaven, heaven to hold

Hey you, give up the ghost cus I'm the one that she

loves the most

And although you've tried she's forever tied to me

And hey man give up your band cus I hold your pen in my

silver hand

And your never close so, give up the ghost

Give up the ghost

Did she ever need you?

Or did you bid a fond adieu

Oh it's left me feeling cold

Well let your lesson be learned

Cus the tables have turned, as our sea sick drama

unfolds

Hey you, give up the ghost cus I'm the one that she

loves the most

And although you've tried she's forever tied to me

And hey man give up your band cus I hold your pen in my

silver hand

And your never close so, give up the ghost

Give up the ghost

Pedros, give up the ghost cus I'm the one she loves to

host

And although we've cried she's never lied to me

He-Man give up your band, cus I hold your sword in the  
silver sand

And you're never close so

Give up the ghost
