

electricity

Switchfoot

I was just thinking about lightning storms
Like the one that knocked the power out until dawn
The phone died and your eyes lit up laughing
Darlin', it's been too long

So let's shut up the phone for the rest of the afternoon
I don't need nobody right here right now but you
Come on hang up and hang out
Come on hang up and hang out

Funny how we're both sitting here alone
Watching strangers living TV lives instead of living our own
Been a minute since your eyes lit up laughing
Maybe we could right that wrong

So let's shut up the phone for the rest of the afternoon
I don't need nobody right here in my arms but you
Come on hang up and hang out
Come on hang up and hang out

Maybe we could just power down just you and me
Maybe we could make our own
Maybe we could make our own electricity

So let's shut up the phone for the rest of the afternoon
I don't need nobody right here in my arms but you
Come on hang up and hang out
Come on hang up and hang out with me

Electricity
