

Everything Will Change in Time

Switchfoot

Say hello to the ones and the zeros on the internet
Walk around, take a good stare down tomorrow
Here we are wide eyed in the shadow of the infinite
The infinite

Well you've got your reasons and I've got mine
But I'm not believing the hype this time

- Chorus -

We stop and go for the same old things
Living for the old deadlines
Tomorrow knows what tomorrow will bring
Everything will change in time
Everything is changing

Say hello, we're the kids on the corner of the ????
But I'm looking for a place that money can't buy me
Selling out that flash and pass for the permanent (?)
For the permanent (?)

Hey what about mixing ???
Settle for one thing and everything's through

- Chorus -

We stop and go for the same old things
Living for the old deadlines
Tomorrow knows what tomorrow will bring
Everything will change in time
Everything is changing
Here we are wide eyed in the shadow of the infinite, the infinite
