

Head over heels

Switchfoot

Head over here and take me
Head over heels and aching
When I told you I was yours
I was yours

- Chorus -

In this life, you're the one place I call home
In this life, you're the feeling I belong
In this life, you're the flower and the thorn
You're everything that's fair in love and war

I'm coming down like a gunshot
In all these battles I've fought
You're the mark I'm aiming for
I was yours

Head over heels
In this life I'm stubborn to the core
In this life I've been burning after more
We both know what these open arms are for
You're everything that's fair
In this life, you're my only one
