

Alien's Landing

SWMRS

La, la la la tee da
No matter where you're feeling from
The moon is out and your eyes are clear
Life's alright and love is real

There's too many stop lights in life
Not enough road for too much gold
So many randomizing plights
You just have to stab it in and go
The less you drive the more it steals
And we're just kids but they don't mind
It'll steer you back for reals
So don't start wasting all your time

We don't know what to trust
We just know how to feel
But if you want to sing along
I promise you it's real

So just go:
La, la la la tee da
No matter where you're feeling from
The moon is out and your eyes are clear
Life's alright and love is real

Willie Nelson where'd you go?
We need your guitar to fight crime
Not even Springsteen's immortal
But Strummer's words will comfort time

We don't know what to trust
We just know how to feel
But if you want to sing along
I promise you it's real

Just go:
La, la la la tee da
No matter where you're feeling from
The moon is out and your eyes are clear
Life's alright and love is real

We'll see you spend your checks and time
'Cause time is running out
To the music we give out
Hoping it'll show us all about

Just say:
La, la la la tee da
No matter where you're feeling from
The moon is out and your eyes are clear
Life's alright and love is real

La, la la la tee da
No matter where you're feeling from
The moon is out and your eyes are clear
Life's alright and love is real

La, la la la tee da
No matter where you're feeling from
The moon is out and your eyes are clear
Life's alright and love is real
