

Interview questions for an alien:
Does Bob Lazar have big dick energy?
I think there's some things that people
Can't see about ourselves
And an outside perspective might help, like--

Are there vegans in space?
Does alien Alex Jones make alien porn deep fakes?
Do cops kill people in space?
Could you show us another way?

'Cause I wanna know how the fuck you got here
Is your ride as cool as my Buick LeSabre?
I've got some questions and you've got an ear
You've got perspective beyond the stratosphere
Help us, Mr. Alien, you're our only hope

He took an anti-matter trip through deep space
He's not afraid of an alien race
He's hoping one day you can meet face to face
He's just a boy (He's just a boy), he's just a boy who's into a
liens

Do they have governments where you come from?
'Cause where I come from the governments run by dum-dums
Snatching crumbs so they can drop more bombs
And is weed legal on your planet?

I wanna ask about the people and the weather in space
'Cause neither one on earth is good or hardly getting better
And it seems as if maybe the Earth and our brains are shrinking
until an inversion point where we just become human black hole
