

Emo Kids

SWMRS

I took a sip of something blue
Listened to some Husker Dü
And tried to drown you out in the distortion
You left the house all dressed in green
Looking for another scene
And I was left here with all these emotions

I'm on the left but you're in the right
And we could go around in circles our whole life

Emo kids have more fun, that's what they all say
But I ain't had a good time since you went away
And even though you're long gone I still see your face
In the singers lungs and the crying drums
Cause emo kids have more fun
Have more fun

Remember that one basement show
That we went to so long ago
And the second band that played was from Atlanta?
We met the singer in the parking lot
He signed our shoes and smoked our pot
We drove 3 hours home in our Camaro

I'm on the left but you're on the right
And we could go around in circles our whole life

Emo kids have more fun, that's what they all say
But I ain't had a good time since you went away
And even though you're long gone I still see your face
In the singers lungs and the crying drums
Cause emo kids have more fun
Have more fun

I'm on the left, you're in the right
And we could go around in circles our whole life
I'm on the left, you're in the right
And we could go around in circles our whole life

Emo kids have more fun, that's what they all say
But I ain't had a good time since you went away
And even though you're long gone I still see your face
In the singers lungs and the crying drums
Cause emo kids have more fun
Have more fun

(Sounds like the Backstreet Boys)
