

Statutory Brainrape

SWMRS

Come here my children see what you'll find,
All the other teachers trying to infiltrate your mind
Force feeding you with required books,
Don't you dare listen to those cerebral crooks

It's statutory brain rape setting you up to lose your mind, oh
no

The video game industry is teaching you to learn how to kill
For the futuristic draft that will take us all against our will

It's statutory brain rape setting you up to lose your mind, oh
no
