Swollen Members

(2x)

Swollen Members gunna make y'all stop
Take a minute and remember who takes the top
To the critics and the cynics, your time is up
Just admit it and rewind it when this rhyme is up
It's hot shiiiiit...

Perfected but not invented
Rhymes from the ego, driven, self centered
Entered the fast lane and never got dented
Life in a flash, pipes, buds and hash
Three of my favourites, four of us made this
More hits than the majors, up from the minors
Bust from the top, dot cops and sirens
Fresh out the shop poppin' n' stylin'

Madchild, wild 'n' nonidentical
The cynical's medical condition is critical
Unforgettable, Swollen Members beautiful
Language unsuittable, tention 'n' tonic
Coastal Chronic, track got Moka on it
Independant, with a diffirent perspective
Select effective, next [scratch sound], or exit
The young and the restless, fool, fuel innjected

Y'all ain't got it so don't even think about it
Cuz I doubt if ya know the top
Swollen Members, Moka Only gunna take the shot
If you thinking that you know me, better press rewind
You can mop it in your song and repossess your mind
If you fronting you can blow me, you can testify
Someone else was about what it takes to climb
Whenever battle axe warriors come out to play
You can bet we gunna do it in the thousand ways
And we sweating up until we'll resuscitate
Members only rock... shiiit... so muthafucka bait... it's hot shiiit...

How many albums bought 'n' sold
Triple ghetto gold, rocked and rolled
Sound... mixed and mastered
Stick with the program, get payed after
TV shows, zeens and magz
Positive feedback, jeans still sagged
Hands still knocked, Prevail gets props
The same as always, rising to the top

With the swarm of excitement
Fighting form we invite critisicm
Rhyme shine like prisms
Spit flames, we see in 3D vision

Even my people play CD in prison... hot shiiit
Bad decision, fatal error
Get scars from bars and bomb every terror
We own lable, never get dropped
Now the crew combined and we can't be stopped

Swollen Members gunna make y'all stop
