

No More

Swoope

Yeah
Yeah yeah
Find peace in Imani
That's my dream, yeah

If it all falls down and it's no more, and I can't take no more
If I still got you, I don't need no more than that, I'm so sore with that
'Cause you're everything I could ever hope for, and I
Know if I ever lost it all, I never lost it all
You're all I want (All I want), all I want (All I want)
All I want (All I want), you're everything
You're all I want (All I want), all I want (All I want)
All I want (All I want), you're everything (I find peace in Imani)

There could never be another you, you're one of a kind
Kind of the one, kind of the win, I'm blessed to have that W
No L's, I don't know why or how I lucked up
But I look up and thank God for the hook-up, I don't deserve it
When you get a blessing this sweet, you don't desert it
When you find your rest in this dream, you don't defer it
And I dream when I wake up to you with no makeup
It's reoccurring, please don't disturb me
Makeup isn't necessary
It's a luxury when beauty is hereditary
Thank you to your mama, more important, your designer, yeah
'Cause anything with you just looks like a good future
This could all be over in the morning
It could all fall down without no warning
All my longterm plans could be shortened
But no matter where I land, I got a sure thing

If it all falls down and it's no more, and I can't take no more
If I still got you, I don't need no more than that, I'm so sore with that
'Cause you're everything I could ever hope for, and I
Know if I ever lost it all, I never lost it all
You're all I want (All I want), all I want (All I want)
All I want (All I want), you're everything (I find peace in Imani)

I can't wait to be like 99, holdin' your hand
Watchin' you watch The Price is Right, all the while knowin' that the prize
is mine
You're the gold, your brown skin is just a silver lining
Still reminded when I'm blinded by your ring that's filled with diamonds
That you chose me, stay hood with a touch of class
Just a dash, so when you hear your song, you still sing, "Yas"
I love that you're sophisti-ratchet
You got the gift of blackness but know how to switch the accent
Girl, you can spit the magic
Codeswitch 'pending who's around
But guarantee you drop it down when you hear that Juvenile
"Cash Money Records taking over for the '99 and the 2000"
Then it's grind time, fine wine, yeah
All my longterm plans could be shortened
But no matter where I land, I got a sure thing, yeah

Speechless from the start by the way that you show me love
Happy after ever, I'll be yours

Some say that love is blind but I see in your eyes
I'm so glad you're mine

I love dancin' with you in the kitchen while you cook
I love waitin' while you dress to tell you how you look
I love when you give advice like you're Doctor Phil
Black girl magic, yeah, I got the real Copperfield
Cop a feel, tap your booty when you walk by
You're sayin', "Quit playin'," but you're all smiles
And that smirk is tellin' me it's all mine
Gotta chill though, got four, and I don't want five
How can I serve you? Take the night off while I watch the kids
Go out with your girls, I stay home and wash the dish
Do my best to clean the house before you get back
Knowin' you just gon' reclean the house when you get back
Or maybe for a change I can cook you dinner
Nah, that's a bad idea, let's go out, I'll call a sitter
Or if you wanna stay in that's cool to
Make a bowl of popcorn and binge a show on Hulu
Netflix or whatever, Chopped on the Food Network
Sometimes throwin' that channel on is a little less work, hah
It don't matter what we doin', long as it's together
Long as I know that I'm with you, everything's forever
This could all be over in the morning
It could all fall down without no warning
All my longterm plans could be shortened
But no matter where I land, I got a sure thing

If it all falls down and it's no more, and I can't take no more
If I still got you, I don't need no more than that, I'm so sore with that
'Cause you're everything I could ever hope for, and I
Know if I ever lost it all, I never lost it all
You're all I want (All I want), all I want (All I want)
All I want (All I want), you're everything
You're all I want (All I want), all I want (All I want)
All I want (All I want), you're everything

It is my delight to present you Mister and Missus Lawrence Allen Swoopes II
