

# Apocryphon

Sword

Set adrift in the multiverse  
By the whims of fate  
In thrall to the demiurge  
We all await escape

Darkness and light entwine  
Everything is all the time  
All around you points align  
Everything is all the time

From beyond the waveform  
Reaching the wall  
Giving birth to a universe  
Mother of all

Living information  
Transverging space-time  
Flowing down from the overworld  
Into the mind of mankind

Darkness and light entwine  
Everything is all the time  
All around you points align  
Everything is all the time

You want to live for eternity  
To see behind the veil  
Everything comes around again  
The serpent eats its tail
