

## Fear For Failure

Sworn Enemy

it's hard to fail but its worse never to have tried  
stop wasting your life in our own doubts  
just follow your dreams  
you have this fear of failure  
just follow your dreams  
you have this fear of failure  
just follow your dreams  
it is what you make of it  
and you can do anything  
don't you know it, it is what you make of it  
just follow your instincts and you can do anything  
relish in the dreams of your future  
so don't worry about yesterday  
you have this fear of failure  
just follow your dreams
