

Dark!

SXMPRA

Dark mothafucka
With the black cap

Ya stand back in my presence
Can you feel that

My back pack
Got a present
Let me grab that

Like oh man
Sxmptra hit em with that shadow rap

Bitch I been a menace with the pen I send em underneath

Ain't no recommending I just let em get to fuckin sleep

Schema be the set I bet we better get ya man and leave

Tryna get a step up so I'm set up with my family

Man there ain't way
Now I gotta lot on my plate
Imma never play games
Wanna make waves
Make lanes
Fuck lames
Really wanna be the one build up my name
Yuh
But I fight with the brain
Fight with the brain
No light in insane
Tryna get away
From the way
That I put up with the fakes
Wanna make my pay
So the fakes I slay like

Got a bag
For the bones
That I stack
Of the hoes
In the back
Of the grass
On the low Tho

Run it back
For the slow
Cause I rap
With the flow
Like a mad man
They don't want it no mo

Black cap
With the tats
And backpack
Bros bank rolls

In a blacked out Cadillac

Cack-a-lack

With the flow like a Mac

And I really wanna be the one to kill em with blow back

Of the master craft

They wanna catch a slap

And imma be that man

With the back hand
