Send that pussy to the underground and let the devil snack

Stroll
Down the fuckin rabbit hole
Wonder when the demons boutta take their mother fuckin toll
Made of coal
Be my heart
Bitch I'm cold my soul departs
Warm my hands in hell before I rip this fuckin plain apart
The black arts
Be my game and bitch you boutta learn my name
Cause I'm breakin out the cage and I got that scythe up to ya brain bitch im
ma

Gut another motherfucker
With that blade
Bitch I'm takin many men out to their motherfuckin graves
Feel the pain
Of the blade
When it's rippin up yo face
Imma killer killin shit bitch I will never play yo game

And I said when we met that my name starts with death but you still chose to
play with me bitch I'm the mane

Watch the blood spray
As I lean down and say

You will not make it this is your last day

Pussy motherfuckers always actin out of line

Pentagram drawn on the floor in the darkest of nights and the moonlight shin
es

Right upon my shrine

As I'm sittin waitin for the right dinin time
I don't mind

Eating the dead like the eater of death bitch I'm making a mess

Blood on my breath and I'm killing you next with a scythe to the neck pussy
please do not test

Blood on the scythe

Mud where you lie

You already know my soul be cold as fuckin ice

One from the knife
Done with ya life

Bitch you cross Deatheater and you boutta say goodnight

Kickin Down the gates swinging that mace
Up in your motherfuckin face
Put a pussy boy up in his fuckin place
With a blade
Lame mane
Say my name

Pussy motherfucker you just made a big mistake

D E A T H E A T E to the fuckin R
Bitch I'm killin up close and then I'm taking very far

Take that

Soul out your skin and then serve it to him

Ground is on fire and I'm stuck here within

Pentagram lining the edge of sanctuary guarding the grounds I've been sent t
o live in

Problems with my same just floating up and down inside my brain
Thinkin can I solve with the barrel of a nice AK

Still the same game
In the fuckin main frame
Brain slain
Lookin for a way to take my sane again
Play safe
Filled with rage
Fuckin with me I will dig up ya grave
