SXMPRA

Mane you fucked up
Fucks up
Better get yo bucks up
Buck up
Pussy boy don't want it did I stutter
Better watch yo back cos we gon put you in a slumber
Suffer till you mutter that you nothin mane you cut up

I am the reaper the keeper the eater
The beast that will teach ya the evil and see ya defeat all the people that
keep ya from creepin up outta they sight

With a mothafuckin scythe in the dark of the night

Take a mothafuckin life

With a kitchen knife

There ain't gonna be a fight

Cos I kill on sight

Mothafucka think twice

When I get it imma take a mothafucka to the light

It's that six six six
Spittin on this devil shit
Mane I'm kickin back livin
It's the way that it is
Im on lockdown
Mothafucka boots on the ground
Ain't no virus stop me I'mma drop a nuke on this town

I'm steady fuckin posted with my foot on ya throat

You can scream mothafucka but ain't no one gone know

You say you sold ya soul
Well here ya go

I'm that evil mothafucka mane I'm here provoke

Fuck a rich man
And the way that he acts
As if a number in the bank can make him better like that

White collar pussy boy
Soldiers ready deploy

Eat these suited motherfuckers and you do it with joy

Mane I eat the rich and save the poor
Fuck the guns we get the dogs
Rottie over shottie homie let em off and watch you crawl
Blood up on the walls
Fuck your money

Fuck your calls
Cos in the end we all end up a carcass in the morgue

I'm sipping on this billy mane I'm feeling fucked up

Replacing all emotion with the a buzz it's making me numb

And the spittin like a mothafuckin villain got me feeling at one

With demon up in my head that's tellin me fuck it I'm done

I'm on lockdown mothafucka
Boots on the ground
Hear that bass bump homie death mane is the sound
I'm on lock down mothafucka
Keepin it loud
Look up at the sky mane I be nuking the town
