

## Elope (Interlude)

Sy Ari Da Kid

If I could put it all in words, I would  
I should  
Yeah, yeah

Why would I hide you, how other guys do?  
Before we had ever did doggy-style, I was behind you  
Gotta remind you, yeah  
I would advise you to look at your UberPool history and see who  
was literally ridin' beside you (So)  
I was beside you and don't get beside yourself, I was entitled  
And you said what's yours is mine without all the titles  
'Member upon the arrival, yeah  
I didn't like you, fear it was love at first sight of my eye vi  
ew  
And if you was a rapper or singer, I would've signed you  
One hundreds of thousands of marketing dollars behind you  
How did I find you? How did you find me?  
If y'all knew what I knew  
You'd probably get me if I would allow you  
You got a history of dealing with Ronald McDonalds  
Just thinking 'bout the missed calls or the times I declined yo  
u  
Or the times I was too toxic and wildin' when I had should've b  
een finding the time to  
Realize that you weren't somebody to lie to  
Want you to be my wife, right here, right now, somebody find me  
a bible  
I'm tired of scrolling on my Twitter and IG for models  
It's getting old, different women and poppin' these bottles  
I'm feeling cold, I'm wildin' for love  
Before there ever was a Clubhouse app, nigga, I was bringing ho  
es to the house and the club, I was

Please don't go  
She can't drive  
She won't know  
Yo  
She gon' stay  
We gon' vibe  
Please don't go  
We gon' fight for love  
We gon' fight for love
