

## Bones

Syd Matters

Danny found these vile creatures  
In the deep place of the room  
They said we don't have any feathers  
We haven't even got bones  
Danny turned them into dishes  
It didn't take too long  
'Coz they were all like fishes  
They didn't even got bones

Where have you been?  
I forgot anyway  
What have you seen today?

He's going down every summer  
He's making a trip underground  
Hurry up to share with his brother  
All the secrets he found  
Never afraid of getting further  
Danny discovered a town  
He wanted to talk with the Queen mother  
Now he's wearing a crown

Where have you been?  
I forgot anyway  
What have you seen today?
