

## All About Me

Syd

I be more than a God in my dreams, it's wishful thinking  
I sleep more than I need to, I drink more on the weekend  
I eat all meat but fish, I keep my niggas with me  
I see sharks in the water, I fiend for marijuana  
I pray for all my homies, I'm lyin', at least I try  
I say that she's my only but got you on my mind  
Today I'm only human, but know that when I die  
My grave gone be my music, my soul is living through it baby

Take care of the family that you came with  
We made it this far and it's amazing  
People drowning all around me  
So I keep my squad around me  
Keep it in the family that you came with  
Keep enemies close you know the basics  
People crowded all around me  
I guess it's all about me

We gettin' checks in the mail, I don't know if you could tell  
Stackin' this bread on the shelf, stackin' my bread on the shelf  
I see you mad at yourself, I see them mad at themselves  
I hear 'em crying for help, I hear 'em crying for help  
Don't be mad if I switch up, my good taste got me this much  
Too sweet for your taste buds, I seen you sleepin' hoe wake up  
They ain't know what sauce was till we served it offa that tonk a  
Drizzled all on your lobster, put shame to your roster  
Me broke, girl dream on, my team on, my weed strong  
Need more of what we on, my league always D1  
We ball all season, Kobe's on my feet bruh  
Pay attention to me bruh, pay me my fee bruh  
You seek answers to questions 'bout me, it's in my music  
You preach bout revolution and dreams, I really do this  
I lead by my example, I see fame as a nuisance  
I don't take it for granted but God dammit  
Sometimes I can't stand it

Take care of the family that you came with  
We made it this far and it's amazing  
People drowning all around me  
So I keep my squad around me  
Keep it in the family that you came with  
Keep yo haters close you know the basics  
People got they arms around me  
That's cause it's all about me
