Right Track

Syd

Baby I'ma need your trust
If we're gonna be in love
Picture you and me in love
I just wanna see your love
Tell me if it's all too much
'Cause we don't really need to rush
I think you could be the one
I think you and me could stunt, yeah

Feel like we're on the right track
Keep it up
You keep me coming right back, yeah
I might be tryna wife that
Yeah, yeah
Yeah, yeah
Yeah, yeah
Yeah, yeah

Maybe you should stay the night
Promise it'll change your life
Call it givin' thanks for life
One day we can make the life
Say I gotta do you right, girl
You aint gotta tell me twice
I knew I'd be your type
You just had to realize that

Seems like we're on the right track
Keep it up
You keep me coming right back, yeah
You know I'm tryna wife that
Yeah, yeah
Yeah, yeah
Yeah, yeah
Yeah, yeah

Found out what you like and you like that
Like that
I'm tryna make you mine
Make you mine, yeah
Mine, yeah
Everything feels so right
Don't you love it when things go right?
Now, can somebody tell me why
You would fight that?

You granted me access
To that ass
I won't take it for granted

Molasses, slow motion
My man said I done changed
Well if this the result
Then I like what I'm attracting

All black in the sun, got me sweating
Let 'em sleep, let 'em nap

Girl, it's natural these days
For a love like this to be inconsistent

But the way that I see it
You already won 'cause you came in with Syd
Come here and sit
Conversation fire, like I talk with a cig

I'm making better decisions
Girl, you shine like a ray
You like Issa nem
This that Ricky Martin Spanish string you feel
We been strumming through drinks
Keep them glasses chilled
I'm a N-E-R-D, 'bout that P, Pharrell, and I

Feel like we're on the right track
Keep it up
You keep me coming right back, yeah
You know I'm tryna wife that
Yeah, yeah
Yeah, yeah
Yeah, yeah
Yeah, yeah

Found out what you like and you like that
Like that
I'm tryna make you mine
Make you mine, yeah
Mine, yeah
Everything feels so right
Don't you love it when things go right?
Now, can somebody tell me why
You would fight that?
