Same Dance

Sylar

Roll it

Okay, right back at it again
With E.R. dot dot dot
Ha! Yeah!
And this shit is mine

(Uh) Quit stepping on the wrong ground (yeah)
Take a step back, turn around, shut your mouth (shut the fuck up!)
Let you back in hoping for a change (yeah)
But ain't nothing change
We're back in the same place
Trying to take what's mine no chance (no chance)
Guess I gotta take matters into my own hands
Same song, same dance
Same song, same dance

All is fair in love and war
Crossing ever line 'til you fallout
But I'm not here to lose it all
Straight to the top, don't stop now
If you come close to the edge
Better be ready to go all the way
It's not about us anymore
All is fair in love and war

Survival of the fittest
Let me show you how I'm with it;
Okay, grab a pen, take notes
This is how I did em
Survival of the fittest
Let me show you how I'm with it

Well you never learn
And that's the sad thing
You are still the same
Oh, it's so tragic
Tell me who's to blame
Anyone but you
And then you hear them say

All is fair in love and war
Crossing ever line 'til you fallout
But I'm not here to lose it all
Straight to the top, don't stop now
If you come close to the edge
Better be ready to go all the way
It's not about us anymore
All is fair in love and war

Alright, we get it
You wanna shine
But, it ain't simple, when shit is mine
And now we hear them say

All is fair in love and war
Crossing ever line 'til you fallout

But I'm not here to lose it all
Straight to the top, don't stop now
If you come close to the edge
Better be ready to go all the way
It's not about us anymore
All is fair in love and war

All is fair in love and war
Crossing ever line 'til you fallout
But I'm not here to lose it all
Straight to the top, don't stop now
If you come close to the edge
Better be ready to go all the way
It's not about us anymore
All is fair in love and war
