Sylar

Confusion
Shit is always on my mind
Happens all the time and I really can't deny
that I'm losing
And that's how I feel
Can't expect to win 'em all
But everyday I heal
Surrounded
Lonely in this crowded room
I got too much left to lose
And it can't be over soon
Yeah, starting over
Just one more step to having closure
Ready or not
It only means I'm getting closer

Lost it all
Can't keep coming undone
I know I've had enough
Can't keep quiet I know I need to say I'm falling
But I'll keep running
Can't keep coming undone
I've had enough

Been too long
So, what's wrong with me?
I try to hide it all, but I can't succeed, yeah
Conclusion
I need some help to feel
Can't pretend to brush it off, live everyday in fear
Fainthearted
If I could, I woulda stopped it
Never woulda started
Catch me if I've fallen
Starting over
Just one more step to having closure
Ready or not, nah nah
I'm getting closer

Lost it all
Can't keep coming undone
I know I've had enough
Can't keep quiet I know I need to say I'm falling
But I'll keep running
Can't keep coming undone
I've had enough
Enough

Here's the truth I really know
That I refuse to fall
My past has shown me the difference from right and wrong
Life is gonna take its toll
I learned from my confessions
Mistakes are made to show us there's another missing lesson

Lost it all
(I've lost it all)

Can't keep coming undone
I know I've had enough
(Yeah, I've had enough for today)
Can't keep quiet I know I need to say I'm falling
But I'll keep running
(So, no more running away)
Can't keep coming undone
I've had enough

I've had enough
(So, no more running away)
I've had enough
