

Believer

Syleena Johnson

It ain't nothing like
When you lay your hands on me
When you put that thang on me
Oh so good it will make a blind one see
And I've never known this kind of feeling it's healing baby you deliver me
And I love it when you go so deep so deep baby Baptize me

And I must confess
Baby you're the best
With just one caress
Baby you save me

Feels like there's no greater love
You got me speaking in tongues

And You could say the skies green
When clearly the sky is blue
I'm convinced it's green too
Boy you make me a believer

Kissing on me touching on me
Can't help but fall to my knees
Lord have mercy on me
Cause you make me a believer

And I testify tell the whole wide world how you set me free
You make me obey you
I praise you
I low key worship you
Now I know I'm tripping. Damn

And I must confess
Baby you're the best
With just one caress
Baby you save me

Feels like there's no greater love
You got me speaking in tongues

You could say the skies green
When clearly the sky is blue
I'm convinced it's Green too
Boy you make me a believer

Kissing on me
Touching on me
Can't help but fall to my knees
Lord have mercy on me
Cause you make me a believer

And my love
Has found a safe place in you
And I don't mind
Giving myself to you baby
Cause Your love is worthy and true

You could say the skies green when clearly the sky is blue

I'm convinced it's Green too
Boy you make me a believer

Kissing on me touching on me can't help but fall to my knees
Lord have mercy on me
Cause you make me a believer
