

For all of your love I'll be a Soldier
I'll fight for your love until it's over
For all of your love on the line I'll stand
Cause I am your woman and you are my man

For all of your love I'll be a Soldier
I'll fight for your love until it's over
Because of your love I'm a better man
Together we fall together we stand

And I'll be standing on the front line for you
When it comes to love I'll fight for you
I only put my guard down just for you
If we stick together we'll make it through (On the front line)

Armed with the love that's so strong
We can make it through any storm
And I salute you for loving me
With you by my side it's a victory

And I pledge allegiance to you and me
Forever my love and loyalty
And I salute you for loving me (oh yeah)
With you by my side it's a victory
Standing on the front line

And I'll be standing on the front line for you
When it comes to love I'll fight for you
I only put my guard down just for you
If we stick together we'll make it through

On the front line
The front line
I'll stand with you on the front line
Together we're better on the front line
Love and Loyalty on the front line

And I'll be standing on the front line for you
When it comes to love I'll fight for you (when it comes to your love)
I only put my guard down just for you
If we stick together we'll make it through (we'll make it)
On the front line
