

No Beginner

Syleena Johnson

How you try, have you tried, God knows I done tried to make it work
He just don't get it babe, the way that you get it babe
From my lips to my hips there's not a spot you will ignore
That's why I miss you babe, that's why I miss you baby

He like it when my heals off
You like it when my heals on
That's what I'm talking bout
You know how to turn me out

You like it with the lights on
He like it with the lights off
He ain't about that life
You know how to do me right

Lately
I been thinking bout it every day
I'm ready
For you double up on that 12 play
So now we here together and we can do whatever
Boy, your body's calling me

This ain't for no beginners
When it comes to me and you
No one can do it better
That's why I'm here with you, you, you
This ain't for no beginner
You know just what I do
No one can do it better, baby
That's why I'm here with you, you, you

Gotta say that I never had nobody ride it like you
Take that time and ride it like you
That's why I'm riding with you
And every time we close that door became no rules
And Imma pin you on this bed like I got somethin' to prove
I know you like it with your hair pulled
But I be hitting real
The way you singing out my name, I know is mine alone
And I don't care let that nigga keep calling your phone
Let it ring, let it ring, let it ring
Cuz we gonna be up in this bed makin' that good ol' love until the Heaven si
ng

Believe me
Girl I been thinking it bout it every day
I'm ready
I'm bout to double up on that 12 play
So now we here together and we can do whatever
Cuz your body's calling me

This ain't for no beginners
When it comes to me and you
No one can do it better
That's why I'm here with you, you, you
This ain't for no beginner
You know just what I do

No one can do it better, baby
That's why I'm here with you, you, you

Last time that we get down your love stays on my mind
I play that shit back just like it was on rewind
I been thinking 'bout your kisses
I really love the way you hit this
You don't even know the misses
Come on baby, you can get this
I miss the way you work it when you throw it back
Hit that shit so good, thought you had heart attack
Want it like this, want it like this
Want it like this, want it like that
Can't nobody put it down like me and that's a fact

Your curves girl I'm all on that
This time where you been gone at?
Don't try to be with another nigga
No damn well where your home at
Damn well where your home at
Damn well where your home at
Baby you know I'm right here

Ain't for no beginners
When it comes to me and you
No one can do it better
That's why I'm here with you, you, you
This ain't for no beginners
You know this what I do
No one can do it better, baby
That's why I'm here with you, you, you
