

# Rooftop Dancing

Sylvan Esso

Concrete, concrete  
Shining everywhere  
Moonlight's bright  
And the kids don't care  
Meet me at the streetlight  
Gonna take you there  
Take you rooftop dancing

Slo-mo throwing my body in the air  
Making the jump from ledge to ledge  
Long hair flying  
We're out of breath  
We're rooftop dancing

Look at look at look at  
I can see everything  
Babies double dutching  
Singing their names  
Counting off time  
Doing their thing

Look at look at look at  
I can see everything  
Babies double dutching  
Singing their names  
Counting off time  
Doing their thing

Sunlight beaming out over the bridge  
We're all running, outrunning death  
Summertime breaking, but we're chasing it  
Forever rooftop dancing

Concrete, concrete  
Shining everywhere  
Moonlight's bright  
And the kids don't care  
Meet me at the streetlight  
Gonna take you there  
Take you rooftop dancing

Rooftop dancing  
I'll take you rooftop dancing
