

Rooftop Dancing

Sylvan Esso

Concrete, concrete
Shining everywhere
Moonlight's bright
And the kids don't care
Meet me at the streetlight
Gonna take you there
Take you rooftop dancing

Slo-mo throwing my body in the air
Making the jump from ledge to ledge
Long hair flying
We're out of breath
We're rooftop dancing

Look at look at look at
I can see everything
Babies double dutching
Singing their names
Counting off time
Doing their thing

Look at look at look at
I can see everything
Babies double dutching
Singing their names
Counting off time
Doing their thing

Sunlight beaming out over the bridge
We're all running, outrunning death
Summertime breaking, but we're chasing it
Forever rooftop dancing

Concrete, concrete
Shining everywhere
Moonlight's bright
And the kids don't care
Meet me at the streetlight
Gonna take you there
Take you rooftop dancing

Rooftop dancing
I'll take you rooftop dancing
