Sylvan LaCue

Ay man  
We on tour and shit  
Supposed to be in Salt Lake City, but I think we really in Park City  
Wise Wise Wise Wise  
A set of vital affirmations for y'all everyday life

Pull up and ride (yeah)  
I'm on a mission for what is inside  
Wanna know why ten thousand hours, I shout out  
Not one to oblige (yahh)  
Look to the sky, my hands on the ride, oh shit I got purpose and time (yahh)  
God on my line, like "nigga you better quit playin' and waistin' my time (ya  
hh)  
I got a plan, I need you to listen for somethin' I bring to your mind" (yahh  
)  
God in design, I'm feelin myself wit' this again, I should make me some time  
(yeah)  
That was a symphony I read out for weezy who was always ahead in my eyes (ya  
hh)  
Ahead of his time  
But fuck it, I might as well show up with my niggas and I (whoop)  
I've come to realize  
All that they need is the will and the right to provide  
We covered our eyes, believed in ourselves and everything God had in mind (y  
ahh)  
I'mma gon side wit' my idol this year  
They say he got rolled up in lies  
But it's Wise Wise Wise  
Master with my masters (yahh)  
Smoke a jimmy to it, niggas be sellin "I ain't even finished school"  
Independent with the funding outta pocket  
And they still think I'm outta pocket  
Travelin' city to city (yahh)  
All my supporters is wit' me (yahh)  
I'm 'bout to be sellin' this, spittin' (yahh)  
I'm one with the earth now get wit' me  
I'm Sheck Wes with the wheelchair, oh (bitch)  
All o' my niggas is real hair  
Nappy boys, high top gauge, got the white assassins nigga's real hair (real  
hair)  
Twenty million streams independently all we needed was to not fold  
We avoided many potholes and as far as real, you do not know  
Who I am influenced by (yeah nigga)  
Probably some niggas you love (uh)  
I be chillin with a Tri-Speed, he be cold headed choose wisely (wisely)  
All this shit is finna timely, like a punch line for the Cosby's  
Like a punch line from the Cosby's, when it's crunch time I'm like "Hold up"  
They said I wouldn't be shit without Logic (shit man)  
That or my process (yeah)  
Now let me, success is the way to define yourself, I don't fuck wit' the top  
ic (oh)  
I'd rather answer to me than anybody else (anybody else)  
I'mma try to free all o' my niggas and share all the wealth  
(Let's go)  
  
I think I made it  
Took care all my niggas, we don't need yo picture

Might take shots but you ain't gonna kill us (whoop)

Feelin' like Yandhi, I'm in touch wit' the fearless  
Listen it, hearin' it (yeah)  
Kanye with the promo's  
That dont sit well with my spirit (oh)  
When Mac died I was mad fried (mad fried)  
Talk about irony nigga (yeah)  
Talk about lyin to niggas about my health in the time that we live in  
Is it a crime to be different? (uh)  
Empathy overload  
What do you do when the summer's cold  
And the powers that be still run a show  
But I'm on the road just to run the show  
In the pen me flossin' (me flossin')  
Changin' the narrative in this game and the price is costly (price is costly)  
I am not proud of and I just ignore to  
Young sylvan feelin' Goku (yeah)  
Two blunts and a cold brew  
Reportin' live for the protools

I think I made it (yahh uhuh)  
I think I made it, now God will be smilin' and y'all know the reason now  
But I can't explain it (yahh)  
It's all in the timing  
I had to keep wise, I had to keep wise (let's go)  
I think I made it (yahh uhuh)  
I think I made it, now God will be smilin' and y'all know the reason now  
But I can't explain it (yahh)  
It's all in the timing  
I had to keep wise, I had to keep wise
