I know how it is, yeah, I know how it goes  
I know what you feelin', I been through it all before, ayy  
Tell me what you need, hit a dose of this empathy  
Uh-uh, ah, uh

I know how it is, yeah, I know how it goes  
I know what you feelin', I been through it all before, uh  
Tell me what you need, hit a dose of this empathy  
(Empathy) empathy, (empathy) empathy  
(Empathy) empathy  
Ah, I know how it is, yeah, I know how it goes (goes)  
I know what you feelin', I been through it all before ('fore)  
Tell me what you need, hit a dose of this empathy  
(Empathy) empathy, (empathy) empathy  
(Empathy) empathy (yeah, yeah)

Girl, you know I got a girl back home, why you textin'?  
Say you goin' through some things, love, why you stressin'?  
Sit your ass down, though, you should tell me everything  
(Everything) everything, (everything) everything  
(Everything) everything  
Ayy, dawg, why you always broke boy ballin' when I see you?  
Instagram stories on Evil Knievel  
But pull up to the spot, I'ma spot you on everything  
(Everything) everything, (everything) everything  
(Everything) everything  
Ayy, love, I know you need space right now, I can feel that  
I should make some time for myself, can't conceal it  
But tell me what you need, baby, I'ma give you everything  
(Everything) everything, (everything) everything  
(Everything) everything  
Ayy, bruh, fuck shit's on the rise, slow tide but I'm locked in  
Responsibilities, ain't no option  
I'll meet your ass in 20 minutes, I'ma do everything  
(Everything) everything, (everything) everything  
(Everything) everything

I know how it is, yeah, I know how it goes  
I know what you feelin', I been through it all before, uh  
Tell me what you need, hit a dose of this empathy  
(Empathy) empathy, (empathy) empathy  
(Empathy) empathy  
Ah, I know how it is, yeah, I know how it goes (goes)  
I know what you feelin', I been through it all before ('fore)  
Tell me what you need, hit a dose of this empathy  
(Empathy) empathy, (empathy) empathy  
(Empathy) empathy (yeah, yeah)

You been on my thoughts, lately  
I can feel your heart, maybe  
You should let me help you  
Let me help you, help you

Help you, oh, help you  
Your problems are my problems  
I digest in high volume  
Lean on me whenever you're not strong  
Not strong, not strong  
Not strong, not strong

Ooh-ahh, ooh-ahh  
Ooh-ahh, ooh-ahh  
Ooh-ahh, ooh-ahh  
Ooh-ahh, ooh-ahh

Exerted all my energy, lonely nights in this room  
I should prolly be meditat'ing or talkin' to God  
But I'ma talk to you 'bout what you goin' through vividly  
Thank me for understanding, mistake it for chemistry  
How many words of wisdom do you require for empathy?  
I put myself in so many other shoes  
Ain't no punch for that bag I carry  
I'm wary of the ways of this world  
Deflectin' my issues, but what's yours?  
See, I could be the shoulder you lean and weep all your tears on  
Make me feel like king when I make you feel like your fears gone  
'Cause you're not alone  
Somebody gets what you been goin' through  
But what about what I'm goin' through?  
Luckily, I built castles around these wild emotions  
Flooded waters with liquor potions  
Combine, you'll get mixed explosives  
Volcanoes of feelings erupt at any given time  
(Ooh-ahh)  
I should prolly turn my phone off and disappear  
(Ooh-ahh)  
I should prolly cut you off, this is gettin' weird  
(Ooh-ahh, ooh-ahh)  
I should prolly say I'm busy, I'll hit you later and lie about it  
Would you understand or be pissed and cry about it?  
Empathy  
(Ooh-ahh, ooh-ahh)  
Ooh-ahh, ooh-ahh
