

I Miss Aaliyah

Sylvan LaCue

I can't I can't wait on no re-up
Take me take me to your leader
Used to flip chips buy brand new sneakers
Nice shoes my shoes sad face beat up
Came back momma hot wait here clean up
Belt buckles sounding like onomonopia
Watch TV Sesame was a teacher
Mighty Morphin Power Rangers I hated Rita
God damn man, I miss Aaliyah
The good die young and the bad get heaters
Meditate levitate regulate read up
Gotta keep a balance man life don't ease up

Young new Zoe surrounded by woes
I believe everything I was told
T.I money rolls cars and clothes
That's how all of my niggas should roll
2014 started burning dro
Sitting on Ubers let alone 24's
Charge it to the stakes hope a nigga take score
Thugga dropped stoner Danny Glover had a glow
Wow. These days I don't want bros
Temper keep kicking all triggers unload
I want to fuck these niggas up cold
My girl said trust God let it unfold
Heart of the cards in which I hold
I learned alot from that Yugio show
Now I play chess with all of my foes
Blunts and Prosecco to lighten the flow

I can't I can't wait on no re-up
Take me take me to your leader
Used to flip chips buy brand new sneakers
Nice shoes my shoes sad face beat up
Came back momma hot wait here clean up
Belt buckles sounding like onomonopia

God damn man, I miss Aaliyah
The good die young and the bad get heaters

Gotta keep a balance man life don't ease up

I never blew up I rose to occasion
They told me you did it I told them I made it
They asked for the difference I said it was basic
When I look in mirrors I know I can face them
When they look at mirrors they'd rather erase them
My spirit is booming my soul is adjacent
My ego is starving I feed it in phases
Can't shit come to life when it's seeded in hatred
Wow. Lessons I keep close
30 bands lost that had to hit the rode
Jigga said sign this I said no
I won't fold not even for Hov
Fuck the resentment but don't get it blowed
Niggas gon pay me whatever I'm owed

I deserve everything under the tow
Double for everything they never told

I can't I can't wait on no re-up
Take me take me to your leader
Used to flip chips buy brand new sneakers
Nice shoes my shoes sad face beat up
