

# One Way To San Diego

Sylvan LaCue

Stay your, stay your course young man  
There's light at the end of the tunnel that you're digging  
Angels carry you to lands  
Past what you see, what you know and where you're living

To close one chapter and begin anew  
Leaving all problems behind, for there are many more to go through  
The universe is listening, God is always with you  
For this many will love and many more will fight against you  
But success is inevitable, it was written for you to grow  
Let this confirmation guide you to your destiny  
But always be mindful to know  
No matter how far you travel, from first breath to dearly departed  
Never forget where you came from, always remember where you start
