Receptible
Read it in
Packetize
Assemble it
Piece by piece
Bit by bit

(Running away)
(Paper blank in pure white)
(Able to decide)

Virtualized, you're born of signs, a brainchild
From elementary code you rise and with a task that's hard-
wired inside

Digitized, at times enhanced from outside
An algorithm still quite infantile, but with a drive full of pr
ogress and features

You analyze and with an urge you search out, you soak it all in
Memorize and with a thirst for knowledge cache it and loop it a
ll anew

You launch the queries used to find out, just like a child desi
gned to seek
As information all that you need... read!
