

## Encoded at Heart

Sylvan

Young and pure, you glimpse the world  
And with uniqueness you light it

Newborn child to raise our hopes, made to outreach  
And lead us where we could never go

Grow to save our wonderful world  
Grow to save our wonderful world  
For on our own we can't save it

Faint and frail in infancy, step into brightness with brillianc  
y  
In our hearts we carry you  
Put our fate in your hands and pray for you, again

Witfully, cut the cord and we let you leave  
Hopefully, just this once you'll prevail, please

Our confidence encoded at heart  
Encoded at heart just for you  
Our confidence encoded at heart  
It's encoded at heart just for you

Time will change, the charge you'll take and as of now I'm sorr  
y  
Will you bear or back away?  
We will be there by your side, but we will never know  
Wistfully, cut the cord and we let you leave  
Hopefully, just this once you'll prevail, please

We feel like we're part of you  
We feel so deep inside for good with you

Our confidence encoded at heart  
It's encoded at heart just for you  
Our confidence encoded at heart  
It's encoded at heart just for you

Brace you, brace you  
Encoded at heart just for you  
Brace you, brace you  
Encoded at heart just for you  
Encoded at heart
