

Go Viral

Sylvan

Malady slowly disseminates, the whole system disintegrates
When this world now successively fades - no, no this is not my
way

One-
track protectionism reclaims, like cancer it poisons the veins
Ecological footprint insane - no, no this is not my way

Spamming me, try to de-
allocate, no patch, too destructive, too late
Don't want to be infected someday - no, no this is not my way

No one's friend, just a fake sympathy, "me first", lastly screw
ed definitely
It is yours, not my bug to delete - no, no this is not my way

About to go viral - and it's freezing me
About to go viral - like a dirty feed
About to go viral - it's deceiving me
About to go viral - I can feel it

You're not worth that I give, you're not worth I abide
It's too late, it's too late
You're not worth to be helped, I abandoned to fight
It's too late, it's too late
It's too late, it's too late

Newsflash displays your destructive breed, just driven by sad,
manlike greed
Tons of data to disconnect me - no, no this is not my way

Overload, have to shut down the stream, offline in the backgrou
nd, unseen
Isolate, reconfigure and clean - no, no this is not my way

About to go viral - and it's freezing me
About to go viral - like a dirty feed
About to go viral - it's deceiving me
About to go viral - I can feel it

You're not worth that I give, you're not worth I abide
It's too late, it's too late
You're not worth to be helped, I abandoned to fight
It's too late, it's too late
It's too late, it's too late
