

Worlds Apart

Sylvan

Purified - as it's meant to be, dazed and doubttingly
I reach out my hand

Clarified - and everything is new, watching over you
Feel to understand, I try

World, wide and open, awoken, broken
Although worlds apart we are linked at heart
Time, how you changed me, made, me, frailty
Tried as best I could, turn, my world, for good with me

Closely tied, so defenselessly you put your trust in me
Now I follow you, I try

Care for you, I'll give hope and lead, I'll be all you need
Be the comfort that I never had

World, wide and open, awoken, broken
Although worlds apart we are linked at heart
Time, how you changed me, made, me, frailty
Tried as best I could, turn, my world, for good with me

Care for you, I'll give hope and lead, I'll be all you need
Be the comfort that I never had

(World, wide and open, awoken, broken)
(Although worlds apart we are linked at heart)

World, wide and open, awoken, broken
Although worlds apart we are linked at heart
Time, how you changed me, made, me, frailty
Tried as best I could, turn, my world, for good
For good, for good, for good, for good...
