

Never Ever

Sylver

Crawling through life's jungle
left alone and lost in time
I need to lose my shadow
I want you to be my guide

Feeding from desire
out of reach and out of sight
my road is long and darkened
I know hope is on my side

Never have I ever felt so alone
never have I ever been stripped to the bone
shivering shadow leave me alone
shivering shadow forever alone

Never have I ever felt so alone
never have I ever been stripped to the bone
shivering shadow leave me alone
shivering shadow forever alone

Never have I ever felt so alone
never have I ever been stripped to the bone
shivering shadow leave me alone
shivering shadow forever alone

Crawling through life's jungle
left alone and lost in time
I need to lose my shadow
I want you to be my guide

Feeding from desire
out of reach and out of sight
my road is long and darkened
I know hope is on my side

Never have I ever felt so alone
never have I ever been stripped to the bone
shivering shadow leave me alone
shivering shadow forever alone

Never have I ever felt so alone
never have I ever been stripped to the bone
shivering shadow leave me alone
shivering shadow forever alone

Never have I ever felt so alone
never have I ever been stripped to the bone
shivering shadow leave me alone
shivering shadow forever alone
