

# The One

Sylver

I wanna ask you something  
I wanna make you see  
I've so much more to offer  
There's so much more in me

Don't question my commitments  
Don't question my desire  
Don't live in my devotion  
The embers burn inside

I can't wait  
It's not too late  
To open up your eyes  
But I have to know  
Just got you know  
I'll ask you one more time

Am I the one, the only one  
Am I the only  
Am I the one, the only one  
For you

Release yourself from sadness  
Release yourself from fear  
Just close your eyes and listen  
A guiding star is near  
Don't question my commitments  
Don't question my desire  
Don't live in my devotion  
In endless burn inside

I can't wait  
It's not too late  
To open up your eyes  
But I have to know  
Just got you know  
I'll ask you one more time

Am I the one, the only one  
Am I the only  
Am I the one, the only one  
For you  
Am I the one, the only one  
Am I the only  
Am I the one, the only one  
For you

Am I the one, the only one  
Am I the only  
Am I the one, the only one  
For you  
Am I the one, the only one  
Am I the only  
Am I the one, the only one  
For you

I wanna ask you something

I wanna make you see  
I've so much more to offer  
There's so much more in me
