

Time Won't Wait

Sylver

Don't be sad, I'm still here
A final night together
One last chance to be
With the one I love 'till the sun grows cold
'Till the moon and stars grow old
Here with you it's all I ever need

Time won't
Wait for
Anyone tonight
Just hold me
Console me
Make everything alright

Time won't
Wait for
Anyone tonight
Just hold me
Console me
Make everything alright

Don't you cry, I'm still near
One more night alone
Then I'll get to be
With the one I love 'till the sun grows cold
'Till the moon and stars grow old
You and me, it's all we'll ever need

Time won't
Wait for
Anyone tonight
Just hold me
Console me
Make everything alright

Time is running out for us
And that last kiss, it said so much
Just hold me now and don't let go
'Cause time is running out

Time won't
Wait for
Anyone tonight
Just hold me
Console me
Make everything alright
