

Mirage

Sylvia

The milky way and the moon
Made a romantic night
Perfect in every way
Till you vanished from sight

You were just a mirage all the time
Just a mirage a trick of the mind
You were just a mirage your eyes were blue
Just a mirage I never saw you
Just a mirage

It was only the song
And the mood I was in
Cause when the music was through
You were missing again

You were just a mirage all the time
Just a mirage a trick of the mind
You were just a mirage your eyes were blue
Just a mirage I never saw you
Just a mirage

It was only the wind
Softly touching my hair
Cause when I reached for you
You were no longer there

You were just a mirage all the time
Just a mirage a trick of the mind
You were just a mirage your eyes were blue
Just a mirage I never saw you
Just a mirage
