

# The Boy Gets Around

Sylvia

They say behind those eyes  
Beats a heart as cold as ice  
If I was smart  
I'd take my heart and run

He promises the moon  
His talk is fast and smooth  
He's only looking out  
For number one

They say  
The boy (the boy), the boy gets around  
He's been (he's been) with every girl in town  
But I don't care what they say  
You know I'm gonna love him anyway  
They'll see, when he gets around to me  
He'll settle down, down, down  
The boy gets around, round round  
The boy gets around...

They tell me, I'll get hurt  
You play with fire, you'll get burned  
But maybe that's a chance  
I'll have to take

Nothing ventured, nothing gained  
I'll prove he can be tamed  
When I get through  
They won't believe the change

The boy (the boy), the boy gets around  
He's been (he's been) with every girl in town  
But I don't care what they say  
You know I'm gonna love him anyway  
They'll see, when he gets around to me  
He'll settle down, down, down  
The boy gets around, round round  
The boy gets around...

I tell you, he's misunderstood...  
Don't they know even bad boys can be good?  
Yes!

But I don't care what they say  
You know I'm gonna love him anyway  
They'll see, when he gets around to me  
He'll settle down, down, down  
The boy gets around, round round

The boy (the boy), the boy gets around  
He's been (he's been) with every girl in to-own  
The boy (the boy), the boy gets around  
They'll see, with me, he'll settle down  
The boy (the boy), the boy gets around  
...
