

## Winter Heart

Sylvia

There was a fire  
That once burned in your eyes  
Where did it go?  
Where did it go?  
There was a love  
That was warm to the touch  
Where did it go?  
I swear I don't know

It's so cold

Winter heart  
Your tears are frozen dry  
Winter heart  
Would you let me come inside?  
Winter heart  
You're keeping us apart  
Come in from the cold  
Winter heart

This is the room  
Where we used to love  
You couldn't wait  
Now you turn away  
These are the lips  
They wait for your kiss  
But now every night  
You turn off the light

Cold as ice

Winter heart  
Your tears are frozen dry  
Winter heart  
Would you let me come inside?  
Winter heart  
You're keeping us apart  
Come in from the cold  
Winter heart

Winter heart  
You're keeping us apart  
Come in from the cold  
I'll melt your winter heart
