

Baby Don't Lie

SYML

Been daydreaming, head in a hole
Been so busy rushing for gold
I never wanted anything more than everything

You dress classic, before your time
You love tragic little storylines
I never wanted anything more than everything

If we're being honest I've been sick about it
Did you go and change your mind?
Baby, don't lie, baby
Baby, don't lie, baby

Lady Luck is always creeping in
But she don't gamble when she's gambling
I never wanted anything more than everything

If we're being honest I've been sick about it
Did you go and change your mind?
Baby, don't lie, baby
Baby, don't lie, baby

Bury me down in a hole
Ordinary "fool's gold"

I never wanted anything more than everything
I never wanted anything more, anything more
You were everything, baby
You were everything, baby

Baby, don't lie, baby
I never wanted anything more than everything
Baby, don't lie, baby
I never wanted anything more than everything

If we're being honest I've been sick about it
If we're being honest I could die tomorrow
Honestly we're running out of time
Baby, don't lie
