

Run with the Devil

Symphony X

I'm on the run, nowhere to turn, they're on my heels
Lost in the maze, where do I go?
Am I insane, it's just a game of life and death
Stay the course and ride the flow.

I cross the bridge, I'm at the gates
I'm out of breath, chasing the clock, I'm out of time.
I hear the dogs, I feel the claws rake down my back
There's no escape, no peace of mind

Oh - Just hold on
Oh - Just hold on
I'm on my way to you...

Run with the devil - run for your life
The truth of the moment, it cuts like a knife
Chasing a shadow - still chasing a dream.
When it's 'do or die', you know there's no in between...

I see the fiends, they're on the move, they strike with fear
Give them the slip, I duck the blade
I knuckle-down, I roll the dice, I dance with death
Lost in the realm of light and shade.

My path is weak, it falls away, I feel the heat
The fires of hell beneath me rise.
Caught in a trap, there's no way out, walls closing in
Is this the hour of my demise?

Oh - Just hold on
Oh - Just hold on
I'm on my way to you...

Run with the devil - run for your life
The truth of the moment, it cuts like a knife
Chasing a shadow - still chasing a dream.
When it's 'do or die', you know there's no in between...

I've searched the depths of hell to find the key
I've wasted time - now time has wasted me...

Run with the devil - run for your life
The truth of the moment, it cuts like a knife
Chasing a shadow - still chasing a dream.
When it's 'do or die', you know there's no in between...
