

Stand Tall

Synapson

I'll be a bird without a sky
You can be warm without the sun
We will drift by without the breeze
I will drift by without the breeze
I'll be a bird without a sky
You can be warm without the sun
We will drift by without the breeze
I will drift by without the breeze

I can shine on without the light
You should live free without the hassle
We can stand tall lying down
We can stand tall lying down
I can shine on without the light
You should live free without the hassle
We can stand tall lying down
We can stand tall lying down

I can shine on without the light
You should live free without the hassle
We can stand tall lying down
We can stand tall lying down
I can shine on without the light
You should live free without the hassle
We can stand tall lying down
We can stand tall lying down

I'll be a bird without a sky
You can be warm without the sun
We will drift by without the breeze
I will drift by without the breeze

We can stand tall lying down

We can stand tall lying down
