

## Tiger Teeth

Synapson

I am not your enemy  
Feeding on the energy  
I always hoped that we could be friends  
If life is just a fallacy  
Sugar in the cavity  
How come I never want it to end?

It's not an island paradise  
Only shadows on the wall  
It's not an island paradise  
When a stranger comes to call

Tiger teeth in the moonlight  
I thought I saw you cracking a smile  
Tiger teeth in the sunlight  
And I'm lonely like an only child

Well, I've been a slave to everything  
Now all those ties I'm severing  
And filling up my days with dreams of you  
And I've been thinking of the place we met  
Now I'm falling with no safety net  
And I only hope that all your lies are true

It's not an island paradise  
Only shadows on the wall  
It's not an island paradise  
When a stranger comes to call

Tiger teeth in the moonlight  
I thought I saw you cracking a smile  
Tiger teeth in the sunlight  
And I'm lonely like an only child

I always quite liked an illusion

Tiger teeth in the moonlight  
I thought I saw you cracking a smile  
Tiger teeth in the sunlight  
And I'm lonely like an only child  
I'm so lonely
